

The Leadership Campaign
Community Member Letter of Support

I, _____, am a member of the _____ organization in _____, Massachusetts. I understand and support the campaign's goal of repowering Massachusetts with 100% clean electricity by the year 2020. I understand the current step they are taking towards achieving this goal, of getting bill #HD4752 passed to implement an Emergency Task Force to aid in the repowering process.

I understand that the Leadership Campaign is a student led coalition of the Students for a Just and Stable Future, the Massachusetts Council of Churches, and the Massachusetts Climate Action Network. I give them permission to present our organization's name to legislators, listed with others from across the state, to demonstrate evidence of their widespread support.

I can be reached by phone at _____ and by email at _____.
